

INTRODUCING...

SKIN XEN

(pronounced "Zen")

Where Nature and Science meet..

### The Power of Peptides...

**What are peptides?** A chain of two or more amino acids joined together that build protein.

**What role do peptides play on our skin?** They stimulate cell renewal thus building collagen and elastin thus diminishing wrinkles.

**How do peptides work?** By stimulating cell activity by interacting with molecules that signal cells to produce more collagen. They act as messengers between the epidermis and the dermis. Recent studies show that "lipo-peptides" help attract cells to other sites that need repair and contributes to the reconstruction of the dermis.

## Advanced technology using 6 unique skin systems:

### Hydrating System:

Filled with nourishing botanicals, lipids, proteins and vitamins, these formulas are ideal for dry skin beginning to show signs of aging.

Key Ingredients: Collagen, Elastin, Milk Protein, Soybean, Ginseng and Hyaluronic Acid.

### Oil-Free System:

Filled with cleansing botanicals, enzymes and acids, these formulas are ideal for balancing and improving oily, congested skin.

Key Ingredients: Salicylic Acid, Papain, Bromelain, Camphor, Witch Hazel, Calendula, Tea Tree, Cucumber and Sage.

### Sensitive System:

Filled with calming botanicals, antioxidants and proteins, these formulas are ideal for nourishing and soothing sensitive skin.

Key Ingredients: Glycoproteins (Revitalin BT), Bisabolol, Guaiazulene, Vitamins A, C, E, Lavender and Neroli.

### Replenish System:

Filled with skin brightening botanicals, skin-friendly esters and a stabilized vitamin complex, these formulas are ideal for replenishing and restoring environmentally-stressed and damaged skin.

Key Ingredients: Chamomile, Vitamins A and E, Stabilized Vitamin C and Co-Enzyme Q-10.

### Renewal System:

Filled with alpha/beta hydroxy acids and skin-friendly botanicals, these formulas are ideal for most skin types and aid in exfoliation.

Key Ingredients: Glycolic, Lactic and Malic Acids. Licorice and Green Tea.

### Vitamins & Intensives:

*Infuses with vitamins and botanicals, these formulas and serums counteract the harsh effects of environmental aggression that contribute to premature aging.*

Key Ingredients: Palmitoyl Pentapeptide-3, DMAE, Alpha Lipoic Acid, Co-Enzyme Q-10, Imperata Cylindrica, Palmitoyl Oligopeptide, Sodium Hyaluronate, Ceramide 2, and Plant Based Ingredients.

*Come in for your skin evaluation and learn more about what's best for your skin type.*
